## Custom IIC Made for an invisible fit

- Particularly small and sits very deep inside the auditory canal making it practically invisible from the outside
- Closer to the eardrum means improved sound quality and clearer speech understanding
- Designed to be removed daily to promote better ear health
- Bluetooth compatible - connect and stream hearing aids to TV, Phone and more...
- Custom designed for your ear

\* Individual results may vary. Invisibility may vary based on your ear's anatomy.
